CITY LAB SOLUTIONS

Who we are

City Lab Solutions is a premier manufacturer, distributor and installer of laboratory furniture, equipment. Our range includes a variety of standard and custom designs, all featuring quality fixtures and fittings.

Our dedicated team is able to assist you from design, through in-house manufacturing to installation and sign off.

Quality: Our unwavering commitment to quality and durability has been a hallmark of the City brand for more than 35 years.

Innovation: In-house product design and development; 3D product rendering and layout design.

Infrastructure: Invested manufacturing plant with three dedicated factories with a strong company-owned logistics network.

Distribution: We offer national distribution across South Africa, as well as exports to Sub-Saharan Africa

Support: Distribution, installations, and full project management.

Warranties: All our materials and work is fully guaranteed and carries extended warranties.

Benching Unit

A suitable and efficient bench system is the foundation of any laboratory layout. CLS offers various styles and configurations including, but not limited to, standard styles to suite any application.

CLS ADVANTAGE: 1,6mm guage steel used throughout, 5 year warranty.

Frames

Our **Frames** are made according to industry-leading standards using steel in a choice of square or rectangular profiles as an in house product. All steelwork is treated by a phosphating process and finished in a baked epoxy powder coating (70mic), available in various colour options. We have 3 standard styles - traditional, simplistic and cantilevered. We also offer custom designs to suite your needs.

CLS ADVANTAGE: Min of 70 mic powdercoating

Cabinets and Units

Cabinets and Units are all manufactured in-house with options to satisfy any specific storage needs. Available as suspended, mobile, wall hung or floorstanding units . All our ranges can be constructed from a variety of materials. (Melamine, PVC, Polyprop, Solidcore etc.)

Cabinets are manufactured in standard size variants (500, 600, 900 and 1000 series), with various shelf, drawer and door combinations.

We offer custom design services to satisfy even the most specific requirements.

5 YEAR
WARRANTY

MANUFACTURED EXCLUSIVELY
IN
SOUTH AFRICA

Two Door | Two Drawer (1000mm)

One Door | One Drawer (500mm)

|------------------------------|-----------------------------------|
| - Polypropylene | - Melamine resin facing/post-form |
| - Stainless steel | - Saligna |
| - Solid grade laminate (SGL) | - Solid core phenolic resin |
| - Granite | - and more |

Fundermax

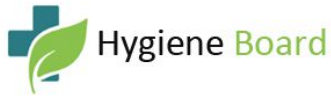

Due to its scientifically developed, double-cured polyurethane acrylic coating, Max Resistance² stands up to the toughest tests – unaffected by solvents, most acids and the harshest chemicals. Easy-to-clean and disinfect while at the same time wear and scratch resistant, this innovative material significantly extends the life cycle of your laboratory work surface.

CLS ADVANTAGE: Double sided as standard.

Hygiene Board

Hygiene Board is a new and unique PVC type board taking the market by storm, offering characteristics more practical than standard type boards. It is anti-fungal, anti-bacterial, waterproof, insect resistant, resistant to most chemicals, print and paint friendly, flame resistant, formaldehyde free, recyclable (including lead free formulation) whilst being friendly on tools. It is available in a range of colours, in sheet format from 3-32mm. It IS safer and SIMPLY BETTER!

Anti Bacterial

Acid Resistant

100% Recyclable

Fade Resistant

Anti Fungal
